

An aerial photograph of a city skyline, likely Chicago, taken from a high vantage point. The sun is low on the horizon, creating a warm, golden glow over the city and the surrounding water. The skyline is dense with skyscrapers, including the Willis Tower and the Trump Tower. The water is visible in the background, and the city extends to the horizon.

Our Purpose

We believe that we can make the world a smaller place.

Everywhere Wireless allows people to go anywhere and see anything from the comfort of your couch by providing super fast and reliable internet service and entertainment media packages.

About Everywhere Wireless

A simpler solution.

In an industry of spotty service (yes, we're looking at YOU Comcast), limited options and hidden fees, Everywhere Wireless brings the Chicago community a transparent offering with faster speeds and lower price. It's as simple as that.

Symbol of our Brand

- The **Everywhere Wireless** logo is comprised of a wordmark set in a typeface that gives it a fun, youthful and energetic vibe, and four green green bars which are representative of a full wireless signal.
- The logo is a visual representation of our brand and everything we stand for. It goes far beyond just the service we provide.
- As such, the logo should always adhere to the proper usage rules stated in this guide.

Usage

Primary Logo

The duotone EW logo should be used whenever possible.

Secondary Logos

Secondary logos with solid approved brand colors can be used when the primary logo usage is not possible.

Logo

Minimum Size & Clear Space

everywhere
WIRELESS

min. size = 100px

Sizing

To help ensure the best legibility, the primary logo must be sized no less than 100px on screen.

X = x-height of word "everywhere"

Clear Space

The logo must be surrounded with sufficient clear space to ensure that it's not crowded. The clear space should be no smaller than the x-height of the word "everywhere".

Best Practices

CORRECT

DO use the duotone logo with approved brand colors.

DO use the black logo on white or light backgrounds.

DO use the white or duotone logo on dark backgrounds.

INCORRECT

DO NOT use gradients or upapproved colors.

DO NOT stretch or distort the logo in any way.

DO NOT apply unnecessary effect such as glows or bevels.

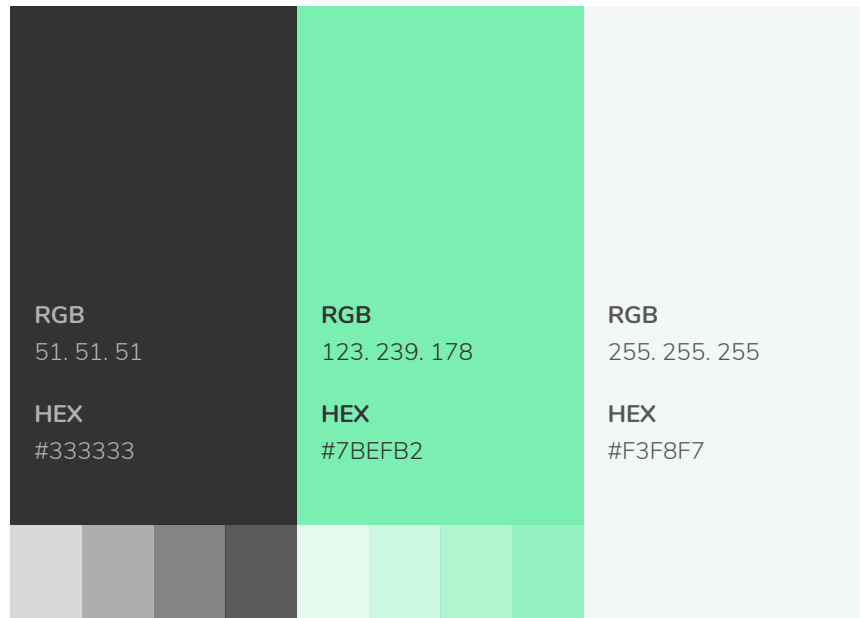

DO use place on busy or low-contrast backgrounds.

Primary Palette

Colors

We use colors purposefully to communicate functionality in the interface. This helps us create visual patterns that can make interacting with our product easy to use and predictable.

The use of color should help bring attention to what matters most. Color should support the hierarchy of the page.

By consistently linking typographic styles to appropriate functions in the interface, we create a clear visual pattern that is easy to follow while interacting with our product.		

Look & Feel

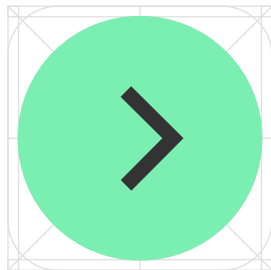

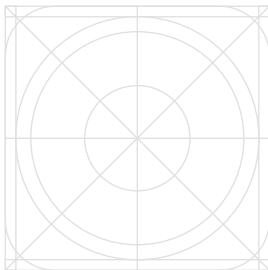

- Photography usage should strike a balance between people and technology.
- Portraits should look genuine and authentic versus posed and gimmicky. The subjects should be representative of real customers and not stock photo models.
- Abstract or product shots should depict or imply connectivity or all the possibilities that being connected can provide.

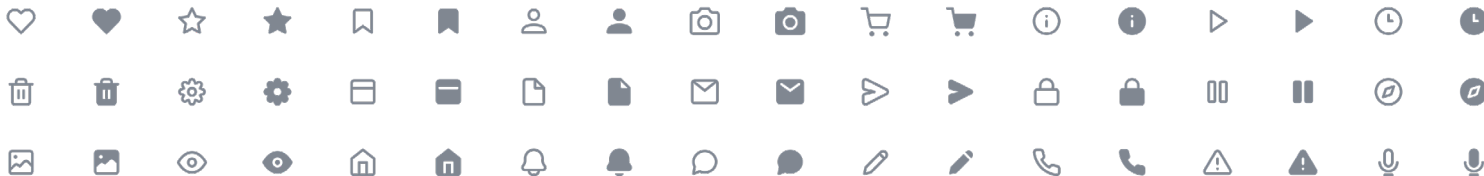

Icon Style

ICON GRID

EW brand icons should be made up of simple geometric shapes and should be instantly recognizable.
